

We're glad you chose the ZenPad Shirt -

With this shirt, you'll experience a completely new way of using ZenPads. Instead of the traditional

Instead of traditional fixation with plasters on the skin, you now have integrated compartments that hold your pads securely and comfortably in place. The highly - high-quality material, consisting of 82% polyamide and 18% elastane, adapts to your skin like a two - layer, dries quickly and is particularly easy to care for.

Whether for sports, leisure or as a comfortable

A sleep shirt – the ZenPad Shirt impresses with exceptional comfort. It combines functionality with skin-friendliness, ensuring optimal comfort.

Comfort
meets innovation

The shirt with
integrated
ZenPad compartments

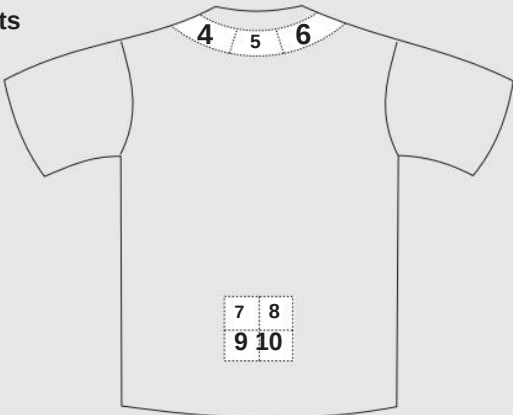

Arrangement of the
ZenPad compartments
front

The compartments are
located on the inside of the
shirt.

Arrangement of the
ZenPad compartments
back

The compartments are
located on the inside of the
shirt.

Innovative
Shirt with compartments
for ZenPads

aero

A very good location for optimizing oxygen supply
is on the chest. Compartments 0 and 2 are
available here. This allows you to experiment to
find out which position the ZenPad
works best for you. Compartment 0 is closed by
default, but can be opened with a small incision,
similar to the other compartments.

relax

The solar plexus (compartments 3 or 2)
is an excellent place for the

ZenPad relax.

Tip: For weather sensitivity and
stress migraines, use the ZenPad relax
test at compartment 5 !

nopainA

The special strength of the
ZenPad noPainA lies in its ability to mobilize muscle
fibers and promote blood circulation. For disc
pain, place the pads in compartments 7,
8, 9 , or 10.

For neck tension we recommend
we use the
Subjects 4, 5 and 6.

Instructions

The medicine of
the future will be the
medicine of
frequencies.

Albert Einstein

Material
82% polyamide, 18% elastane

Make sure the ZenPads are in their compartments when putting on and taking off the shirt. The ZenPad can fall out, especially when taking off the shirt. The shirt must be worn close to the body for optimal contact. Remove the ZenPads from the compartments before washing.

	Do not tumble dry		Do not wash above 40°C
	Do not bleach		Iron at low temperature

Return Policy: The ZenPad° shirt can be returned or exchanged within 14 days of receipt, provided the shirt is unused, unwashed, and the tag has not been removed. Upon receipt, we will inspect the shirt for signs of wear and tear and then decide whether to issue a refund. More information can be found in our Terms and Conditions.
